

Gonzalez Statement on the President's Speech on Comprehensive Immigration Reform

Washington, DC – Today, Congressman Charlie Gonzalez (TX-20) issued this statement following the President's speech on Comprehensive Immigration Reform:

“President Obama made a profound case to move forward on immigration reform, with an emphasis on the importance of a comprehensive solution. Piecemeal legislation will not help solve the root of this issue. As it may be easier to settle for individual pieces of legislation, we must focus on the larger issue at hand: our entire system is broken. We need a bipartisan effort in order to have a comprehensive solution that works in the best interest of our entire nation, promotes our economy and makes for a stronger society that shares the common values of hard work and dedication to family.”
